SUBJECT INDEX

(Page numbers in *italics* refer to abstracts)

Abdomen
  complaints in cystic fibrosis, 867–873
  congenital lumbar hernia, 419–420
  gastroschisis. *See* Gastroschisis
  increased pressure in, cardiovascular effects of, 621–626
  masses in infants, radiology of, *266*
  neurofibromatosis in, *434*
  nonpenetrating injuries of, 69–76
  recurrent pain in childhood, long-term results of, *433*
  trauma of, major surgery in, 155–162
Abdominoperineal pull-through procedure, urethral diverticulum after 249–250
Acetylcholine
  colonic muscle response to, 13–20
  in tissue, in Hirschsprung's disease, *265*
Achalasia
  cricopharyngeal, 775–777
  esophageal diagnosis and cardiomyotomy in, 911–912
Acid-base disorders
  in diaphragmatic hernia, 49–56
  tissue, muscle gas monitoring in, 633–641
Acidosis, hyperchloremic, in rectourinary fistula with imperforate anus, *433*
ACTH-secreting Wilms' tumor, Cushing's syndrome from, 535–539
Adenitis, cervical, tuberculous, 103–107
Adhesions, peritoneal, from starch and gauze fragments, 531–533
Adolescent medicine, and role of pediatric surgeons, 749–754
Adrenal gland
  carcinoma of, 59–66
  Cushing's syndrome, 535–539, *795*
  pheochromocytoma, 179–183, *271*
Adrenogenital syndrome, and genital reconstruction in girls, *149*
Aerophagia, and rupture of stomach in newborn, *431*
Agenesis
  pulmonary, bilateral, with other anomalies, *259*
  sacral, hereditary, *150*
Air embolism, after penetrating lung injuries, *259*

Alimentary tract. *See also* Esophagus; Intestines; Stomach gastroduodenal hormones affecting bile flow, *146*
Alimentation, intravenous. *See* Nutrition, parenteral
Amebiasis, surgical management of, *263*
Amino acid levels, anesthesia affecting, *429*
B-Aminoproprionitrile, in prevention of esophageal stricture, *262*
Amniotic bands
  and congenital finger amputations, *429–430*
  ophthalmic malformations from, *429*
Amputations
  congenital, of fingers, from constriction bands, *429–430*
  of finger tips, and regeneration, 853–857
Anastomosis
  of ascending aorta to right pulmonary artery, *141*
  cava-pulmonary artery, *570, 792*
  colonic, drains affecting, *432*
  duodenoduodenostomy in duodenal obstruction in neonates, 385–388
  esophageal, end-to-side, and ligation of tracheoesophageal fistula, 305–310
  hepatic portoenterostomy in biliary atresia, 329–333
  jejunoileal bypass in obesity, 341–345
  Potts, closure of, in repair of tetralogy of Fallot, *141*
Anemia, hemolytic
  autoimmune, thymectomy in, 771–774
  of mechanical origin, *258*
Anesthesia
  halothane, experience with, *429*
  metabolic effects of, *429*
  psychiatric view of, *258*
  risks in sickle cell trait, *789*
  in surgery on young minipigs, 515–518
  symposium on, *567*
Angiocardiography, in infants, *261*
Animal studies
  anesthesia in surgery on young minipigs, 515–518
  cardiovascular effects of increased intra-abdominal pressure, 621–626
  caustic burns of esophagus in cats, 317–326
  choledochal cyst in puppies, 509–513
  comparison of proximal and distal ligation of mesenteric vessels, 505–507
  effect of drains in colon anastomoses, *432*
  fundoplication, *924*
  gastroschisis pathophysiology, 627–632
  intrauterine production of aortic coarctation in lambs, *262*
  Meckel's diverticulum with ectopic gastric mucosa, 605–613, 879–883, 885–888
  muscle gas measurements in tissue acid-base disorders, 633–641
  necrotizing enterocolitis, acute, 587–595
  prevention of esophageal stricture in cats, *262*
  pulmonary hypertension model, *430–431*
  tracheal growth after segmental resection, 615–619
  ureteric obstruction, *796*
Ankle surgery, in congenital vertical talus, *438*
Announcements, 584
Anorectal sphincter function, in Hirschsprung's disease, *144–145*
Antibiotics
  in perforating appendicitis, 79–82
  prophylactic, in umbilical artery catheterization, *138*
Antilymphocyte serum, affecting intestinal transplantations, 29–33
Anus
  embryology of, 755–768
  imperforate
    with absence of vagina, 555–556
    with diaphragmatic hernia and other anomalies, 525–529
    with rectourinary fistula, complications of, *433*
    urethral diverticulum after surgery for, 249–250
    urologic disorders with, *145*, 197–201
Aorta
  ascending, anastomosis with right pulmonary artery, *141*
  coarctation of
    with aortic rupture, *571*
    with double aortic arch, *142*
    intrauterine production of, in lambs, *262*
    results of surgery in infants, *792*
Aortic arch
  double, coarctation in, *142*
  interruption with ventricular and atrial septal defects, *142*
Aplasia
  cutis congenita, 415–416
  of tibia, and duplication of foot, *437*
Appendectomy
  ureteral obstruction after, 559–560
  wound infections in, prevention of, *925–926*
Appendicitis
  abdominal radiography in, *144*
  and calcified fecalith in infant, 541–542
  leukocyte count in, *263*
  perforating, antibiotics in, 79–82
Appendix
  changes in cystic fibrosis, 867–873
  foreign bodies of, 207–211
  pinworm infestation of, *793*

Arrhythmias, after correction of transposition of great vessels, *140–141*
Arteries, pulmonary, development during childhood, *139*
Arteriovenous fistula construction, for hemodialysis, 465–466
Arthrogryposis, elbow in, *579, 797*
Arthropathy, hemophilic, synovectomy in, 123–125
Ascites, chylous, traumatic, parenteral nutrition in, 405–406
Ataxia, Friedreich's, foot surgery in, *438*
Atlantoaxial dislocation, nontraumatic, *149–150*
Atresia. *See anatomic sites of atresia*
Atrial septal defect
  with accessory diaphragm, 223–225
  with aortic arch interruption, *142*
  results of ostium primum correction, *791–792*
Auricle. *See* Ear
Autoimmune hemolytic anemia, thymectomy in, 771–774

Bacteremia, *Bacteroides*, in surgical patients, *921*
Bacteroides bacteremia, in surgical patients, *921*
Bands, constricting. *See* Amniotic bands
BCG vaccination, osteomyelitis after, 109–112
Bicarbonate therapy, in respiratory distress syndrome, *138*
Bicycle injuries, *429*
Bile
  gastroduodenal hormones affecting flow of, *146*
  inspissated, pathology of, *147*
Bile acids
  in diarrhea after ileal resection, *574*
  serum patterns in biliary atresia, *576*
  small intestinal, in stagnant loop syndrome, *573–574*
Biliary tract
  abnormalities with duodenal atresia, *792–793*
  atresia of
    cholestyramine in, *576*
    differentiation from neonatal hepatitis, 699–705
    gallbladder for drainage in, 413–414
    hepatic portoenterostomy in, 329–333
    surgical procedures in, *576–577*
    with vascular anomalies, liver transplantation in, 707–714
  cystic dilatation of common duct, surgery in, *925*
  experimental choledochal cyst, 509–513
  familial malformations with renal tubular insufficiency, *577*
Biopsy, pulmonary, open procedure compared with needle technique, 347–352
Bladder. *See also* Vesicoureteral reflux
  electronic implant stimulators in urinary incontinence, *267–268*
  exstrophy of
    Boyce-Gest operation for, *267*
    management of, *796*
  musculature in fetus, *927*
  neurogenic
    in meningomyelocele, cystometric studies of, 477–483
    occult, 35–41
  pressure studies in spina bifida, 471–476
  retrovesical cysts in boys, *267*
  rhabdomyosarcoma of, surgery in, *929*
  sarcoma of, *929*
  vesicorenal reflux, *435*
Bochdalek hernia. *See* Diaphragm, hernia of
Bone conditions. *See* Musculoskeletal system
